Please bring these items with you to your appointment:

- Enclosed patient forms: Please complete them at home & bring them with you
- Current insurance cards and Driver's License/Photo ID
- A list of current medications and/or eye drops
- The name and contact information for your primary care physician and/or referring physician

Setting expectations for your visit:

- You will receive a very thorough, comprehensive eye exam which could include a variety of testing depending on your current eye health. Expect to be in our office **2 – 3 hours**.
- Please **DO NOT wear contact lenses** to your visit.
- **If you are scheduled for a Cataract or Lasik Evaluation:** You must be out of SOFT contact lenses for 2-weeks and HARD contact lenses for 4-weeks **prior** to the office visit.
- We will be using eye drops to dilate your eyes so the doctor can give you a thorough exam.
- Your doctor will explain the results of the examination, offer any recommendations for treatment, and will take the time to answer any questions you may have.
- Your eyes will be dilated after the exam and we encourage you to bring a driver if you would not feel comfortable driving dilated. Many patients do drive themselves, as it is a personal preference.
- **Please DO NOT wear perfume, cologne, scented lotions and/or hair sprays,** as many patients and staff are sensitive to fragrances.

The Eye Center, P.A. participates in most Medicare and commercial insurance plans.
Copays and any other fees are due at time of service.

If you have any additional questions please call our office at 803-256-0641.

**Thank you for choosing The Eye Center, P.A.
We look forward to seeing you!**
